

**THE UNIVERSITY OF TEXAS AT EL PASO**  
**COLLEGE OF SCIENCE**  
DEPARTMENT OF MATHEMATICAL SCIENCES

Course #: 2326  
Course Title: Differential Equations- 21428  
Credit Hrs: 3  
Term: Spring 2017  
Course Meetings & Location: TR 9:00-10:20 in LART 202  
Prerequisite Courses: Math 1312  
Course Fee: (if applicable)  
Instructor: M. A. Khamsi  
Office Location: Bell Hall 328  
Contact Info: 747-6763 Phone #  
Mohamed@utep.edu E-mail address  
747-6502 Fax #  
747-6750 Emergency Contact  
Office Hrs: TR 12:00 to 1:00, and by appointment.  
Textbook(s), Materials: Required: [\*Differential Equations\*](#), Fourth Edition.  
Brooks/Cole, by Blanchard & al

Suggested:

Course Objectives (Learning Outcomes): This course will incorporate the use of computer software to illustrate methods of solving differential equations and systems of differential equations. The course will be taught in the "Calculus Reform" spirit, explaining the new concepts numerically, graphically and symbolically. Particular emphasis will be put on modeling of differential equations, the study of systems of differential equations, and the fundamental difference in the behavior of linear and non-linear differential equations.

The expected student learning outcome from this course is that students learn the material well enough to pass Differential Equations and to succeed in all math courses that require Differential Equations as a prerequisite.

Course  
Activities/Assignments:  
Assessment of Course Objectives: There will be homework, grades from quizzes, three midterms, and the final exam.  
Grading Policy: The in class quizzes, homework count for 20% while the two best midterms count for 40% and the final exam counts for 40% towards your overall class average.  
Make-up Policy: Make-up tests will only be given under extraordinary circumstances and only if you notify the instructor prior to the exam date.  
Content: The course will cover Chapters 1, 2, 3, 5 and 6 of the textbook. The instructor will assume that you have a thorough knowledge of the material covered in Calculus II.

- Fair Warning:** It is expected that you spend an absolute minimum of two hours outside of class for every in-class hour on solving homework problems, reading the textbook and reviewing your class notes. If you do not have the time necessary, you should take the course some other semester. The course's approach to calculus is intended to be different. If you have had a calculus course already you will probably find much that is unfamiliar and a very different emphasis on things you may think you know already. Be alert to this and remember that previous experience is unlikely to be enough to coast on. Treat each topic as if you were meeting it for the first time, and be alert to make sure you understand each day's material before the next class meeting.
- Attendance Policy:** It is a must you attend all lectures. Unjustified absences will result in points taken from the Part average.
- Academic Integrity Policy:** For more on this, please refer to UTEP's policy cited in:  
<http://academics.utep.edu/Default.aspx?tabid=23785>
- Civility Statement:** As a general rule, anything that will disturb other students will not be admitted.
- Disability Statement:** If a student has or suspects he/she has a disability and needs an accommodation, he/she should contact the Disabled Student Services Office (DSSO) at 747-5148 or at [dss@utep.edu](mailto:dss@utep.edu) or go to Room 106 Union East Building. The student is responsible for presenting to the instructor any DSS accommodation letters and instructions.
- Military Statement:** If you are a military student with the potential of being called to military service and/or training during the course of the semester, you are encouraged to contact the instructor as soon as possible.
- Course Schedule:** The final exam is comprehensive and will be held Tuesday May 9th from 10AM to 12:45. The class schedule lists **Thursday, March 30** as the last day to drop with an automatic "W". The instructor will NOT assign a "W" for students dropping the course after the deadline.
